Credenza Display Medallions (CDMs) give the “**WOW** Factor” that you’re looking for in a recognition piece. We’ll engineer sculpted graphics, raised and recessed relief and clarity of detail incorporating designwork that’s SPECIFICALLY targeted to the event, achievement, product launch, building dedication, recognition gift or corporate anniversary. All totally geared to the recipient!

CDMs feature a vertically positioned medallion elevated by 2 design-integrated posts above a faux marble base with custom nameplate for wording and/or personalization. The backside features copy which “tells a story” about the layout on the front or a message you wish to deliver.

Also, CDMs are portable! No holes in the wall. Display it proudly on your desk, credenza or bookshelf. *There are no extra costs for complexity or special shapes!*

Ornament with Diamond Cuts

Meridian's #1 Most Requested Custom Casting!

In each of the last 11 years, corporate-identified holiday ornaments have become THE highest volume custom product that we run over the course of a year. Approximately 50% of all companies and organizations who order them once, order them again...and again.

Ornament layouts are more effective when the logo plays a support role to the designwork that your recipients will appreciate. It may be a winter landscape; holiday icons; company images; a new product; something whimsical; or a local church....there's no limit.

All ornaments include descriptive copy on the backside, with the option for sequential numbering, as well. They only weigh about 1.25 oz. and, even better, they won't break when you drop them!

Need artwork to show a series of ornaments for the next 3 years? We're happy to do that! So let us take the "holiday gift monkey" off your back this year...and for years to come.

Standard 4" Hitch Cover

5" Bottle Opener Hitch Cover

Backside with Flange, Gasket & Insert Wireform

Almost all larger SUVs and pick-up trucks have factory-installed hitch receivers for towing. When not towing, those vehicles have an ugly, open hole on the back end. Our custom hitch covers feature durable, colorful castings with a spring steel wireform that inserts into, and can be secured to, all 2" receivers in just 15 seconds. Your logo will "pop" from 20-30' away. Promo product opportunities can be found ANYwhere!

Custom hitch covers are ideal for employees in blue collar industries, such as construction, heavy equipment, oil & gas, farming, freight & transportation. They're also popular to display the logos for universities, unions, the military and team sports. \*Hitch-locks not included.
