

Standard 4" Hitch Cover

5" Bottle Opener Hitch Cover

Backside with Flange, Gasket & Insert Wireform

Almost all larger SUVs and pick-up trucks have factory-installed hitch receivers for towing. When not towing, those vehicles have an ugly, open hole on the back end. Our custom hitch covers feature durable, colorful castings with a spring steel wireform that inserts into, and can be secured to, all 2" receivers in just 15 seconds. Your logo will "pop" from 20-30' away. Promo product opportunities can be found ANYwhere!

Custom hitch covers are ideal for employees in blue collar industries, such as construction, heavy equipment, oil & gas, farming, freight & transportation. They're also popular to display the logos for universities, unions, the military and team sports. *Hitch-locks not included.

Options (P)

- Antique pewter finish @ N/C
- Brite nickel finish @ \$5.00
- Colorfill: 1 color @ \$2.00....2 colors @ \$3.00....3 colors @ \$3.60
